

The background features a dark blue field with numerous glowing, curved blue lines of varying thickness and intensity, creating a sense of motion and depth. These lines sweep across the frame, some appearing as sharp streaks while others are more diffuse. The overall effect is reminiscent of light trails from a long-exposure photograph or a digital data visualization.

Salem's "Phoenix" Amphitheatre opened in 2013.

The first annual Salem Afro-Caribbean Beneficiary Concert was opened by **Johnny Clegg** and brought crowds from the region, Africa, the UK, Canada and the USA, including many diaspora Montserratians.

Proceeds go to the generation of Salem, as well as providing for under-privileged children and needy persons across the island.

A view of the island's future

The island has developed its facilities for sports tourism.

The 9-hole, 18-tee golf course is neighboured by 3- and 4-bedroom serviced villas that cater to families or golfing groups.

A central clubhouse includes meeting rooms and conference / function facilities

# Montserrat in 2020

A view of the island's future

The serviced villas also provide accommodation for those attending the residential tennis coaching courses and for VIPs visiting the various sports events

The facilities also include a restaurant serving local, regional and international dishes prepared by award-winning chefs
