4.0 EVALUATION OF TENDER

Evaluation Criteria

The following evaluation criteria will be used to evaluate tenders received in response to this Invitation to Tender. Tenders must achieve a minimum overall score of 65 to be considered for award of contract.

Criteria Description	Score
Adherence to Technical Specification <i>(minimum required score)</i>	35
Warranty length and inclusiveness	10
Technical Support/ Training (before and after sales)	15
Availability (Delivery Time)	10
Price	30
Maximum Technical Score	100%

Tenderers that fail to meet the minimum technical specification will not be considered as responsive to the tender requirements regardless of other technical scores). Only those tenders achieving the minimum overall technical score will be considered for award of contract.

Technical Specifications (35)

Adherence to technical specification is paramount. Marks will be awarded depending on the degree of compliance with the technical specifications as compared with the other tenders.

Warranty Length & Inclusiveness (10)

Tenderers should provide in their tender the terms and condition and length of any warranty provided with the sale of the equipment. Marks will be awarded on the basis of warranty length and the comprehensiveness of coverage. The score for this criterion will be calculated in proportion to warranty submissions from other tenders. The fullest warranty offering will be awarded maximum points and all other bids will be scored proportionally with shorter and less-inclusive warranties scoring lower marks.

Technical Support / Training (before and after sales) (15)

The maximum mark will be awarded to the best technical support and training offered among all tenders, so that preference will be given to those suppliers that can provide intensive pre- and post-sale training to the Client's maintenance personnel, in addition to other essential after sale services such as the availability of spare parts. The percentage to be assigned to all other tenderers will be calculated proportionately to the tender that offered the most extensive technical support and training.

Availability (Delivery Time) (10)

The maximum mark will be awarded to the tenderer providing the shortest delivery time for the equipment and all spare parts to Montserrat. The mark to be assigned to all other tenderers will be calculated proportionately to the tender that offered the shortest delivery time for all items.

Price (30)

Tenderers must complete the Form of Tender and return this with their tender submission. The tendered price is a significant factor and the Government of Montserrat will seek to ensure that the vehicle is purchased at the most economically advantageous price. However, there are other factors which comprise the criterion and these will be considered proportionately. Government of Montserrat is not bound to accept the lowest or any tender. The percentage for this criterion will be calculated proportionately in comparison to other price submissions from tenders. The price should be inclusive of insurance to Montserrat (i.e. CIF Montserrat).
