EVALUATION OF TENDERS

Evaluation Criteria

The following evaluation criteria will be used to evaluate tenders received in response to this Invitation to Tender provided. The Administrative Compliance would be applied before the remaining criteria and is either pass or fail with failure meaning that bids would be deemed Non-compliant.

Administrative Compliance

Tenderers must submit all the documents requested in the tender document. The tender checklist provides a list of requirements which need to be fulfilled. All Tenderers are required to fully complete the Form of Tender including the commencement time and the

proposed completion time which are highlighted. A valid Tax Compliance Certificate must be submitted with each submission. Tenderers must sign and date the Anti-Collusion statement.

The submissions must meet all of the requirements in terms of submission date and time and packaging of the submission as described herein.

Where **all** the above requirements have been fulfilled then the tenderer would advance to the next evaluation criteria. If any of the above mentioned items are not submitted, then the tender would be deemed non-compliant and the submission rejected.

Once the tenderer has met all of the administrative compliance requirements, the proposal will be advanced to the next stage of evaluation.

Criteria for Evaluation

Criteria Description	Weight (%)
Time frame	5
Programme of Works	15
Steps to ensure the safety of the members of the school community	30
Cost	50

Time Frame (5%)

In order to avoid disruption to the operations of the school it may be necessary for portions of the works to be undertaken during unusual hours such as on weekends. It is expected that the project will be completed with 4 weeks of the issuance of a works contract. Tenderers with the shortest works duration will be assigned a score and all other tenderers will be rated on this criteria proportionately

Programme of Works (15%)

Tenderers are required to provide an accurate detailed programme of works showing a list of all activities which would be carried out to complete the works including time frames for each activity. The programme should effectively show the total duration for completing the works and hand over dates. Programmes with the necessary requirements would be assessed on the basis of realistic sequencing and duration of each sequence of activities. While preference will be given to tenders which include the programming of works on weekends, this is not absolutely essential. The tender with the most appropriate programme in its totality for the circumstances described herein will be awarded a score against this criteria and all other tenders scored proportionately.

Safety and security of the school community (30%)

It is important that the safety of the school community is assured during the works to be undertaken. This is an important consideration to reduce Government's exposure in the event of an accident to staff or students. Hence all bids must indicate how the safety of all concerned will be assured.

The tender which demonstrates the most comprehensive and realistic plan to address this criteria will be awarded a score and all other tenders will be scored proportionately.

Cost (50%)

The tendered price is a significant component and the Government of Montserrat will seek to ensure that the works are undertaken at the **Most Economically Advantageous Tendered Price**. Nonetheless the Government of Montserrat is not bound to accept the lowest tender. The percentage for this criterion will be calculated proportionately in comparison to other priced submissions from tenderers.
