

Upcoming Tendering Process for Montserrat Ferry Services

The Government of Montserrat is an internally self-governing overseas territory of the United Kingdom, located in the Leeward Islands.

Currently there is a ferry service between Montserrat and Antigua and the Government will be tendering in mid-June for a new one-year contract for the service, with the contract commencing on the 1st October 2019.

The Government is therefore seeking operators with a suitable ferry to conduct a regular service between Montserrat and Antigua with occasional trips to other neighbouring islands.

The Government is seeking value for money through this procurement, which will be advertised through the e-sourcing portal (mytenders) and through a hard copy paper-based process. The tender award will be made on the basis of the most economically advantageous tender, over the full period of the contract.

Prospective bidders seeking more information about the timeline and the Montserrat procurement process, or who would like to be informed of our longer term plans for the service, are invited to email Ms Harjinder Jutle, Procurement Department Jutleh@gov.ms
