

# **Expressions of Interest (EOI)**

## **Supply & Installation of an Asphalt Plant**

### **1. Introduction**

The Government of Montserrat (GoM), is seeking Expressions of Interest (EOI) for the **Supply & installation of an Asphalt Plant**. Interested parties are required to submit to the Government of Montserrat an EOI, outlining what type Asphalt Plant they are capable of supplying and installing, that can meet the asphalt needs of the island for road maintenance, road construction and Airport runway resurfacing works.

The information generated through the EOI will be used to assess the market interest and capacity for the supply of an Asphalt Plant. This EOI does not constitute a commitment, implied or otherwise. This will be a two-stage tender process and GoM will not be responsible for any costs incurred in submitting an EOI or any other information.

### **2. Objectives**

The objective of this request for Expressions of Interest, is to engage suppliers who are capable of supplying and installing a Drum Mix or a Batch Asphalt Plant that can meet the construction and maintenance needs of the Island. This plant will be used for the John A. Osborne Airport runway resurfacing in 2020, as well as for general road network upgrade work.

It is assumed that the solution will be able to provide:

- C. 100+e asphalt per hour
- Drum mix or Batch Plan with necessary accessories.
- Plant control system
- Cold feed capacity
- Compliant with the power supply rating of the island, which is 60Hz, dual power by direct power supply or standby generator.

### **3. EOI & Assumptions**

Expressions of Interest (EOI) are being sought from the following market participants:

- A. The interested participants or registered companies must have an excellent track record;
- B. Must have sound financial standing, excellent financial capacity and access to funding;
- C. Must be able to provide capital for the supply and installation of the Asphalt Plant as payment would be processed as per agreed schedule;
- D. Must be able to provide adequate expertise and personnel for the set-up of the Asphalt Plant, technical support, training in operation and maintenance of the plant;
