TENDER FOR THE SUPPLY OF STUDENT CHAIRS TO THE MONTSERRAT SECONDARY SCHOOL

BACKGROUND

Most of the furniture at MSS needs to be replaced. Much of this furniture was procured in 1995, prior to the start of the volcano eruption, and in some instances was repatriated from Plymouth. Most are in a state of disrepair due to wear and termite infestation. The schools was forced to dispose of a portion of its stock of desks and chairs because of the advanced state of their deterioration. The school is not currently able to provide suitable and safe furniture for all of the students.

The desks and chairs requested will serve to support the child-centered learning being established at the school through the facilitation of group work, exploration and role play with minimum loss of time for classroom rearrangement.

Objective

To provide the basic furniture necessary to outfit MSS which currently has inadequate furniture for the 2017/2018 academic year. This in line with the objective of the Education Development Plan one of whose aim is to create *“A modern, enriching, child-centered learning community, with a nurturing teaching and learning environment, created to respond to the changing and diverse school population.”*

FURNITURE CHARACTERISTICS/SCOPE OF WORKS

All furniture shall conform in terms of sizes and durability to BS EN 1729 or to **ISO 5970:1979** or to **other suitable acceptable international standards**.

The Ministry of Education requires the successful bidder to supply **24 ICT Swivel chairs** adjustable height from 19" to 26"; caster fitted legs; padded with or without arm rests;

The Ministry of Education requires the successful bidder to supply **160 student chairs** suitable for use at the Montserrat Secondary School and made of any combination of wood, plastic, metal or any other suitable material. The furniture for students will be used in a school by students aged from 11+ to 16+ hence not only must they be sized appropriately but they must be sufficiently sturdy to withstand a high level of use, withstand the prevailing climatic conditions, and under normal use be able to last at least 12 years.

Group work is a growing culture in schools and the design of school furniture has adapted to cater to this new thinking.

Specifications/Sketches/Drawings

Bidders must submit with their bids the full specifications of the units. Specifications should include dimensions, construction materials and their characteristics. The successful bidder must deliver the furniture described in their tender. In all circumstances, the originally agreed items are expected to be supplied within the agreed timeline. **No increase in the successful bidder's cost proposal will be agreed.**

Bids submitted without detailed drawings/sketches may be deemed non-responsive and rejected

EVALUATION OF TENDERS

Evaluation Criteria

The following evaluation criteria will be used to evaluate tenders received in response to this Invitation to Tender provided. The Administrative Compliance would be applied before the remaining criteria and is either pass or fail with failure meaning that bids would be deemed Non-compliant.

Administrative Compliance

Tenderers must submit all the documents requested in the tender document. The tender checklist provides a list of requirements which need to be fulfilled. All Tenderers are required to fully complete the Form of Tender including the commencement time and the proposed completion

time which are highlighted. A valid Tax Compliance Certificate must be submitted with each submission. Tenderers must sign and date the Anti-Collusion statement.

The submissions must meet all of the requirements in terms of submission date and time and packaging of the submission as described herein.

Where **all** the above requirements have been fulfilled then the tenderer would advance to the next evaluation criteria. If any of the above mentioned items are not submitted, then the tender would be deemed non-compliant and the submission rejected.

Once the tenderer has met all of the administrative compliance requirements, the proposal will be advanced to the next stage of evaluation.

Criteria for Evaluation

Criteria Description	Weight (%)
The strength and durability of the furniture proposed	24
Suitability of dimensions, shape and design	18
Cost	50
The delivery time	8

Technical & Financial Compliance (100%)

BREAKDOWN OF FINANCIAL AND TECHNICAL EVALUATION:

The strength and durability of the furniture proposed (24%)

ICT chairs (8%)

Student chairs (8%)

In these criteria each category of furniture is rated for strength and durability. This shall refer to the suitability in terms of construction material and design for the physical environment including the atmosphere; to the robustness to withstand a certain level of abuse which may occur from

time to time. Durability shall be determined by minimum period for effective use under normal conditions of use.

The bidder which proposed the longest period of use under normal conditions in each category of furniture shall be awarded up to a maximum of 6 points for each category. All other bidders shall be scored in this category relative to the top scorer under this category.

The total score under this category for each bidder shall be found by adding the scores under each category of furniture.

Shape and design:

It must be noted that the students desks should be so shaped that they encourage group work for collaborative learning. The ergonomics for each category of furniture will be considered under shape and design.

The maximum score for this criterion is 20% and each category of furniture will be scored individually as shown above. The best submission for each category will be scored under this criterion and all other bidders will be scored relatively under each category.

The total score under this category for each bidder shall be found by adding the scores under each category of furniture.

The cost (50%)

The cost for each unit in each category of furniture is a critical issue. The score assigned to this criterion shall be a cumulative one based on the total cost for the entire bid. The cost for each unit tendered shall be compared to the cost for similar units discovered during on line research. The bidder with the best price when compared to the prices discovered during the research shall be assigned a score and each other bidder shall be scored relatively. It should be noted that he bidder with the lowest cost per unit in any category may not necessarily receive the best score. The issue is not necessarily the lowest price but indeed the best price.

The delivery time (8%)
