EVALUATION OF TENDER

Evaluation Criteria

The following evaluation criteria will be used to evaluate Tenders received in response to this Invitation to Tender. The Administrative Compliance would be applied before the remaining criteria and is either pass or fail with failure meaning that bids would be deemed non-compliant. Bidders **must achieve a minimum score of 65% to be considered for award of contract.**

Criteria Description	Weight (%)
Administrative Compliance	Pass/Fail
Price	40
Availability (Delivery Time)	20
Adherence to Specification	30
Installation, Training and Maintenance Cost	10

Bidders that fail to meet the above qualifying score will be rejected and not considered for award of contract.

Administrative Compliance (Pass/Fail)

Bidders must submit all the documents requested in the Tender document. The Tender checklist provides a list of requirements which need to be fulfilled. All Bidders are required to fully complete the Form of Tender including the commencement time and the proposed completion time which are highlighted. In addition, they need to fully complete the Bill of Quantities provided. A valid Tax Compliance Certificate need to be submitted with their submission. Bidders should sign and date the Anti-Collusion statement. Similarly details of previous experience must be submitted in accordance with the Technical Compliance below. This is a pass/fail criterion. If **all** the above requirements are fulfilled, then the Bidders would move onto the other evaluation criteria. If any of the above mentioned items are not submitted, then the Tender would be deemed non-compliant and rejected.

Financial Compliance (40%)

The Tender price is a significant factor and the Government of Montserrat will seek to ensure that the works are under taken at the most economically advantageous price. The Government of Montserrat is not bound to accept the lowest or any Tender. However, there are other factors which comprise the criterion which are stated in the table above (Criteria Description) and these will be considered proportionately. The percentage for this criterion will be calculated proportionately in comparison to other price submissions from Tenderers.

Availability (Delivery Time) (20%)

A higher than normal weighting has been given to delivery schedule, so that preference can be given to those suppliers that can supply the equipment into Montserrat at the earliest time. The percentage for this criterion will be calculated proportionately to similar submissions from other bidders.

Adherence to Specification (30%)

Adherence to technical specification is paramount. The procuring entity is particular that the stated specification is received from the supplier. Under no circumstance will the procuring entity accept equipment different in quality than those stated in the specifications and Bills of Quantities. Marks will be awarded depending on the degree of compliance with the technical specifications as compared with the other Tenderers

Cost of Installation, Training and Maintenance Cost (10%)

The procuring entity is particular that value for money be obtained for installation and commissioning; training and maintenance of the equipment.
