ARCHITECTURAL SERVICES FOR THE CONSTRUCTION OF TEMPORARY CLASSROOMS FOR THE MONTSERRAT SECONDARY SCHOOL

Background

Montserrat's Sustainable Development Plan (SDP) for the period 2008-2020 has outlined this country's strategic goals intended to guide the long-term sustainable development of the Island. Embedded in the *Human Development Medium-Term Objective 2* of the SDP: *'Increase access to and improve quality of formal and informal education'* is the strategic action 2.2.1 which states: *'Improve education infrastructure to respond to growing student population, changes to curriculum, and developmental needs'*. This objective places specific emphasis on securing adequate accommodation for Ministry of Education (MoE) staff and developing appropriate facilities for the effective delivery of education-related services. This action will both enhance the existing facilities to be suitable for occupation, as well as develop additional building assets to relocate classrooms still in temporary accommodation.

With the support of the UK Department for International Development (DfID), the Government of Montserrat (GoM) is planning and implementing a number of priority infrastructure projects that are key to the re-development of this volcano devastated Island. This work is progressing under the umbrella of the Capital Investment for Economic Growth (CIPREG) Programme. This terms of reference relates to a specific project to address urgent capacity issues within the Montserrat Secondary School. The construction of two new temporary classroom structures will provide four new classroom spaces for continued educational delivery at MSS. Due to the immediate requirement for these new structures, the project will utilize existing designs and information from previous constructions of temporary classroom structures on the site to inform and accelerate this work.

Objectives

The overriding objective for this terms of reference is to provide design, project cost estimation, construction bill of quantities and construction oversight for the construction of two temporary wooden structures at the Montserrat Secondary School to be used as classrooms.

These buildings must be designed to ensure appropriate access for disabled persons, in line with international building standards. The Government of Montserrat has existing designs to be used as

the basis of the new design but which will require modification to incorporate disabled access, whilst responding to the specific requirements of the identified site.

The project is schedule driven, and therefore timely completion of the design and project planning work is of high importance. The timescales associated with this project reflects this requirement. With that in mind, GoM will provide existing designs in editable format for modification, and other supporting information to assist with limiting the overall schedule. These designs are copyrighted by the Government of Montserrat, and will remain the property of the Government. The successful Architect would be required to meet with the Head of the Project Manager Unit, within the Ministry of Finance, as part of his/her discovery before embarking on the assignment.

To ensure the implementation of the project is in accordance with best practices, as well as to manage project related risks, the Architect role would include:-

1. Ensuring all relevant government objectives, legislation, codes and national policies which are necessary to promote positive outcomes are adhered to including; procurement, land take and contract regulations.

- Monitor and ensure that the project is being implemented in accordance with the plans, on schedule and budget.
- Report any concerns relating to health and safety during the execution of the project

This Agreement shall be governed by the laws of Montserrat, without regard to its conflict of law's provisions.

14. ENTIRE AGREEMENT AND SEVERABILITY

The rights and obligations of the parties, and their respective agents, successors and assignees hereunder shall be subject to and governed by this Agreement, including Schedules "A", "B", which supersedes any other understandings or writings between the parties. No changes, amendments or modifications of any of the terms and conditions of this Agreement shall be valid unless reduced to writing and signed by the party to be bound. The invalidity of one provision, or invalid application thereof, of this Agreement shall not affect the validity of any other provision or any other application of any provision of the Agreement.

15. DISPUTE RESOLUTION

- (a) Any controversy or claim arising out of or relating to this Agreement or the breach hereof, shall be subject to good faith negotiation and/or mediation as a condition precedent to binding dispute resolution. The MoE and the **Consultancy** will attempt in good faith to promptly resolve any controversy or claim arising out of or relating to this Agreement or the breach thereof by negotiations between representatives of each party who have authority to settle the controversy. The disputing party shall give the other party written notice of the dispute, which notice shall include a general description of the dispute, and the name and title of the individual who will represent that party. The representatives shall meet at a mutually acceptable time and place within seven (7) calendar days after the date of the disputing party's notice and thereafter as often as they reasonably deem necessary to exchange relevant information and to attempt to resolve the dispute.
- (b) If good faith negotiations are not successful, the parties shall endeavor to resolve their disputes by mediation. A request for mediation shall be made in writing, delivered to the other party to this Agreement, and filed with the person or entity administering the mediation. The request may be made concurrently with the binding dispute resolution but, in such event, mediation shall proceed in advance of binding dispute resolution proceedings, which shall be stayed pending mediation for a period of 45 days from the date of filing, unless stayed for a longer period by agreement of the parties or court order. If binding dispute resolution is stayed pursuant to this Section, the parties may nonetheless proceed to the selection of the mediators (s) and agree upon a schedule for later proceedings.
- (c) If the dispute has not been settled within 45 calendar days after the date of the disputing party's notice under Clause 15 (a) above, any lawsuit or proceeding regarding or relating to an unresolved dispute between the parties, regardless of whether there are other parties to the dispute, shall be commenced and filed in Montserrat.
- (d) The **Consultancy** shall and shall cause its sub consultants, if any, to continue full performance

under this Agreement pending the above claim resolution procedures and the ensuing litigation proceedings, if any, unless and until either MoE the **Consultancy** terminates this Agreement or the Final Completion Date occurs.

IN WITNESS THEREOF, the parties hereto have executed this Agreement on the dates set forth below, to be deemed effective as of the date first written above.
