The Ministry of Health and Social Services is soliciting bids from qualified businesses and persons to provide proposals to supply Endoscopy Equipment for the Glendon Hospital. The equipment must conform to the specifications provided in this tender document. Respondents are required to take into account the following considerations:

- (a) **Provision of Equipment**
Cost associated with acquiring the specified product and shipping with adequate insurance coverage to Port Government Headquarters, Brades, Montserrat. The supplier should include inland freight in their bid.

- (b) **Documentation**

- (e) **Installation and Commissioning**

The supplier is responsible for installation/commissioning; training of local staff to include basic maintenance and trouble shooting and operation; and maintenance of the unit.

EQUIPMENT TO TRADE: It is very important to note, that the government of Montserrat has in stock a list of endoscopy parts such as monitors and scopes which they wish to trade in for a price reduction of this procurement requirement. It is **not** mandatory that a bidder consider this option. However, bidders interested in taking up this option should state clearly the price per equipment by completing the **Equipment to Trade** list and incorporating this into the final bid submission price in the form of Tender and Bills of Quantities.

4.0 EVALUATION OF TENDER

Evaluation Criteria

The following evaluation criteria will be used to evaluate tenders received in response to this Invitation to Tender. The Administrative Compliance would be applied before the remaining criteria and is either pass or fail with failure meaning that bids would be deemed non-compliant and not considered any further. **Tenders must achieve a minimum score of 65% to be considered for award of contract.**

Criteria Description	Weight (%)
Administrative Compliance	Pass/Fail
Price	30
Availability (Delivery Time)	10
Adherence to Specification	50
Installation, Training and Maintenance Cost	10

Tenderers that fail to meet the above qualifying score will be rejected and not considered for award of contract.

Administrative Compliance (Pass/Fail)

Tenderers must submit all the documents requested in the tender document. The tender checklist provides a list of requirements which need to be fulfilled. All Tenderers are required to fully complete the Form of Tender including the commencement time and the proposed completion time which are highlighted. In addition they need to fully complete the Bill of Quantities provided. A valid Tax Compliance Certificate need to be submitted with their submission. Tenderers should sign and date the Anti-Collusion statement. Similarly details of previous experience must be submitted in accordance with the Technical Compliance below. This is a pass/fail criteria. If **all** the above requirements are fulfilled, then the tenderer would move onto the other evaluation criteria. If any of the above mentioned items are not submitted, then the tender would be deemed non-compliant and rejected.

Financial Compliance (30%)

The tendered price is a significant factor and the Government of Montserrat will seek to ensure that the works are under taken at the most economically advantageous price. The Government of Montserrat is not bound to accept the lowest or any tender. However, there are other factors which comprise the criterion which are stated in the table above (Criteria Description) and these will be considered proportionately. The percentage for this criterion will be calculated proportionately in comparison to other price submissions from tenders.

Availability (Delivery Time) (10%)

A higher than normal weighting has been given to delivery schedule, so that preference can

be given to those suppliers that can supply the equipment into Montserrat at the earliest time. The percentage for this criterion will be calculated proportionately to similar submissions from other tenders.

Adherence to Specification (50%)

Adherence to technical specification is paramount. The procuring entity is particular that the stated specification is received from the supplier. Under no circumstance will the procuring entity accept equipment different in quality than those stated in the specifications and Bills of Quantities. Marks will be awarded depending on the degree of compliance with the technical specifications as compared with the other tenders.

Cost of Installation, Training and Maintenance Cost (10%)

The procuring entity is particular that value for money be obtained for installation and commissioning; training and maintenance of the equipment.
