

# PICTORIAL DISPLAY

## GOM INFRASTRUCTURE PROJECTS 2009 - 2012

The government continues in its coordinated effort to redevelop Montserrat by investing in critical infrastructure, much of which was lost when Plymouth and its environs had to be abandoned.

The photos displayed are evidence of visionary leadership converted into concrete actions. It must be recognized that a number of strategic partners have provided valuable financial and technical assistance for the execution of these projects. The government has always been keen to recognize the contribution of such agencies.

PROJECT - AMERINDIAN GARDEN**

**MEDICINAL GARDEN**

**THE ORCHID HOUSE**  
It houses a variety of orchids including the Philippine orchid *Diplazium* sp.  
Bromeliads which grow naturally in the area. The greenhouse is open to  
the public from 9:00 AM to 5:00 PM.  
Biodiversity is a collection of other orchid built under and inside which  
house a variety of other plants.  
Biodiversity is a collection of other plants, but each member from the Biodiversity  
Center is a part of the Biodiversity Center. We hope to provide all of our members  
with a variety of other plants.  
A number of orchids have contributed to knowledge of orchids. One has been
