## Foreword

Ministry of Education, Montserrat, as a member of OECS and CARICOM has a mandate to provide access to education that

1. ensures that "every learner succeeds" (OECS)
2. produces "creative and productive citizens for the $21^{\text {st }}$ century" (CARICOM)
3. produces "well rounded and qualified life-long learners" (MoE's EDP)

This inaugural Statistical Digest is designed to assist the Ministry of Education to track progress, identify challenges, plan response strategies and make decisions that are data based/driven. The digest is also designed to share pertinent information with our valued stakeholders: schools, parents, children, government departments, regional and international organizations and donor agencies.

This project was made possible with the technical support of Mr Kendall Khodra (St Lucia) and Mr Keith Thomas (St Vincent and the Grenadines) which was funded by the OECS, EDMU.

Special thanks to Arietta Buffonge, Angelle Cassell, Tiffany Christopher, Madge Donoghue, Edith Duberry, Lorraine Francois, Eurlyn Jeffers, Gregory Julius, Wannis Persaud, Yasmin White and Sharon Burns.

Hon. Minister Colin Riley.
Minister of Education, Youth Affairs and Sports

## A Message from the Director of Education

The Ministry of Education, Youth Affairs and Sports subscribes to the general belief that decisions which are made in the absence of real, accurate and timely date are fraught with risks of failure. This is especially true in the social sector of human endeavour and is no less so in education.

Education delivery is not a science and thus there are no equations or formulas to use to guarantee success. Past performances are evaluated carefully periodically and trending is used for forecasting and for forward planning.

Strategic planning (with its need for designing SMART performance indicators and targets) cannot be done in the absence of real and usable data. One must be absolutely sure what success looks like and this can only be previewed when accurate data is available.

As Director of Education I extend sincere gratitude to all those professionals who were involved in the collection and presentation of data. This is an absolutely vital piece of work the result of which will be used to inform decisions which are made at the local and regional level.

## Glemst

## Mr Glenn Francis

Director of Education

## Compulsory Education in Montserrat

Education Sector in Montserrat is divided into three distinct levels: Early Childhood, Primary and Secondary. The Early Childhood level refers to the care and education of children prior to admission into the primary level. At this level formal care and education are provided in daycare centres for children up to two years and at nursery schools/pre-schools for children three to four plus. Compulsory Education begins at five years by March 31 at the Primary Level and continues until age 16 at the Secondary Level. Government provides education for the majority of the children on Montserrat since although early childhood or pre-primary education is not complulsory 6 out of eight (88\%) centres are government owned. Two out of four (50\%) of the primary schools and the only secondary school are public. Two hundred and seventy seven ( $63 \%$ ) of the primary aged children on Montserrat attend public schools.
